

**ReachFar Foundation**

**is**

**Pleased to Present**

**"Color Me Happy"** which is an extraordinary art program where we help our children reach their highest creative potential by developing their artistic interest among diverse cultures, genres, and historical eras and then applying their new found knowledge and interest with hands on art and building projects.

Youth will work on individual as well as group projects, thus developing both their personal self-esteem and confidence as well as ability to work well with others! We will use every day recyclable items to construct our projects as well as other creative tools that add **FLAVOR, STYLE** and **PERSONALITY!**

This teaches children how to support a green and clean planet by not wasting reusable items while making them look great in the process!

Some of our upcoming fall projects are:

- Robots and Bumble Craft
- Mini City Project
- Flower Celery Color Changing Experiment
- Where is the "Renaissance"
- **AND MUCH MORE!**
